Appl. No. 10/549,987

Amendments to the Specification

Submitted herewith under the provisions of 37 CFR §1.125 is a Substitute Specification (clean copy) together with a marked-up copy of the Substitute Specification which shows all added material underlined and all deleted material struck-out.

The undersigned affirms that the Substitute Specification only includes those changes shown on the marked-up copy and does not contain any new matter.

The Substitute Specification corrects matters of form and grammar from the English translation of the original specification.

Please amend the Abstract as follows:

-- A coenzyme ~~Q10~~ Q₁₀ and ceramide-containing preliposome, and ~~the use for the manufacture of a pharmaceutical preparations preparation~~ and cosmetics containing the same. thereof. The preliposome ~~can comprise~~ further comprise other lipid components. The A granular and lyophilized solid-preparation is produced by lyophilization or spray drying. Then, the coenzyme ~~Q10~~ Q₁₀-containing preliposome is obtained by adding water in the said ~~solid~~ solid-preparation and shaking. ~~The present invention can further improve the transdermal~~ Transdermal absorption of coenzyme ~~Q10~~; ~~improve~~ is improved together with the effect of coenzyme ~~Q10~~ Q₁₀ in ~~cosmetics~~; ~~and improve~~ cosmetics and the stability of coenzyme ~~Q10~~ Q₁₀ and liposome, which facilitate the formulation of cosmetics. --
